SUMMARY OF THE REASONS FOR DECISION:

The computer image file entitled AA 9333*b* is classified as:
Objectionable.

The JPEG computer image file is one of a total 280 computer image files stored on a Jaz disk and submitted together. The file contains one black and white photograph candidly depicting a naked girl of 14 or 15 years old. She appears to be dancing. Script imprinted in the image includes a computer bulletin board service name and number, a file name and a brief descriptive title that sensationalises her nudity.

The computer image file tends to promote and support the exploitation of children and young persons for sexual purposes. The medium in which the image is presented facilitates wide distribution and proliferation of the image. The main purpose of the publication is the titillation or sexual stimulation of adults with a prurient interest in children and young persons. The publication is therefore deemed objectionable.

The publication tends to promote and support an activity listed in s3(2) of the Films, Videos, and Publications Classification Act 1993, deeming the publication objectionable. This deeming provision limits the rights and freedoms of expression specified by s14 of the New Zealand Bill of Rights Act 1990 (NZBR Act). This limit is prescribed by law, consistent with the directions of s5 of the NZBR Act.
